

Lesson 398

Mechanics - Punctuation - Italics & Underlining

Italicize words used emphatically, but it should not be overdone.

Example:

You *never* agree with me.

Material that is *italicized* in print or by computer is *underlined* in typewritten or hand written work.

Instructions: *Italicize* those words which you could emphasize in these sentences.

1. I do not like that at all.
2. That was an awesome movie.
3. I love your dress.
4. You always slur your words when you speak.
5. She overdoes everything.

(You could emphasize any word that you wanted, but again you should do so sparingly.)
