

Quiz for Lessons 81-85**Parts of Speech - Conjunctions**

A **conjunction** is a word that joins other *words*, *phrases* (groups of words), or *clauses* (groups of words with a subject and verb).

Co-ordinate conjunctions join words, phrases, or clauses of equal rank. There are two kinds: *simple* and *correlative*. **Subordinate conjunctions** join dependent clauses to independent clauses. I will refer to them simply as *co-ordinate*, *correlative*, and *subordinate*.

The **co-ordinate conjunctions** are the following: *and*, *but*, *or*, *nor*, *for*, and *yet*. (*For* and *yet* can only join clauses.)

The **correlative conjunctions** are always in pairs. They are *either-or*, *neither-nor*, *both-and*, *not only-but also*, and *whether-or*.

Some common **subordinate conjunctions** are *after*, *although*, *as*, *as if*, *because*, *before*, *if*, *since*, *so that*, *than*, *unless*, *until*, *when*, *where*, and *while*.
